DVB RACING IN GT4 SERIES

GT4 is the GT class definitely forging ahead and throughout Europe excellent championships are coming into being. The championships are held during brilliant A-weekends, with among others the Blancpain Series, DTM, ADAC GT Masters or other top series on the programme. During each weekend two races are on the programme, where two drivers share the car.

It is therefore no surprise that a professional team such as DVB RACING will also be taking in this GT4 championship in 2019. The years of experience in the Porsche Benelux GT3 Cup Challenge, Belcar, the Supercar Challenge and many others makes that DVB RACING is opting for the Porsche Cayman GT4 from Weissach. A DVB RACING delegation was invited for a sneak preview of the latest Porsche Cayman GT4 in Weissach, and this is more than a mere sign of trust!

DVB RACING will enter the Porsche Cayman GT4 in the GT4 European Series or during the ADAC GT4 Germany. Both championships are also supported by SRO.
